# Detox

The good and effective liver purifier in 30 practical 10ml sachets

## Bloating and poor digestion

The plant extracts contained in **Detox** allow you to progressively improve digestive function. The presence of active ingredients able to stimulate the secretion of bile by the liver allows for more effective emulsification of fats, facilitating their digestion and absorption and ensuring a significant reduction in abdominal bloating. In addition, adequate digestion of fats (and fat-soluble vitamins) is essential to prevent irritation in the final part of the intestine, which is not used for digestion.

## Tiredness and drowsiness after meals

An intoxicated organism often presents small symptoms of tiredness, poor mental clarity, weakness and drowsiness, especially after meals. **Detox** gives new energy and vitality by improving tissue oxygenation and cleansing the organism from accumulated toxins.

The **Ultrasonic processing** allows **full extraction** of all plant active ingredients (water-soluble, fat-soluble, essential oils, minerals, amino acids, trace elements and vitamins) without heat or solvents, and preserves the integrity of the phyto-complex which is entirely transferred to the water.

## Water retention, difficulty losing weight

**Detox** promotes proper disposal of toxins and fluid drainage, counteracting water retention. It also better prepares the organism to cope more successfully with periods of calorie restriction or slimming diets aimed to the loss of body weight.

## Prevention of stones

By stimulating proper liver and kidney function, **Detox** dramatically reduces the incidence of stones.

## Disease prevention

The drainage of food toxins and other poisons such as drugs, alcohol, or smog through **Detox** allows to counteract aging and degeneration of the liver; the increase in functionality and number of defense cells makes the organism stronger against attacks by pathogens.

## Recommended dosage:

1 sachet per day dissolved in a glass of water or in a bottle of water, to sip during the day.

Ingredients and content for maximum recommended daily dose: (one 10ml stickpack equivalent to 10 g)

Carciofo foglie e.a.c.	1575 mg
Chrysanthellum parti aeree e.a.c.	1260 mg
Boldo foglie e.a.c.	1260 mg

Garofano bocci fiorali e.a.c.	158 mg

- Artichoke
- Chrysanthellum
- Boldo
- Dandelion
- Pineapple
- Wormwood
- Cloves

**NO ALCOHOL**  
**NO ADDED SUGAR**  
**NO COLORANTS**  
**NO SYNTHETIC AROMAS**

## Food allergies and intolerances

Allergic reactions and food intolerances are often due to the accumulation of toxins, which hinder or alter the organism's normal metabolic processes. **Detox**, by promoting the drainage of toxins and detoxification of the organism, prevents annoying itches, skin rashes, allergic phenomena and intolerances.

## High cholesterol

Cholesterol performs very important biological functions within our organism, however, an excess of free cholesterol in the blood is extremely harmful as its deposition within the lumen of vessels could cause atherosclerotic accumulation with serious cardiovascular consequences. **Detox**, thanks to the synergistic action of its active ingredients, allows the production of cholesterol by liver cells to be kept under control.
